We all know Scouting’s goal is to prepare young people for life, but does it work?

Scouting was put to the test over a three year study, with a research team from Tufts University. The study measured the character attributes of both Scouts and non-Scouts, with a goal of better understanding the character development of today’s youth.

In the beginning, there were no significant differences, by the end however the research proves why Scouting works!

KEY FINDINGS:

- The more time kids spend in Scouting, the better the outcomes in character development.
- Scouts are more likely to embrace positive social values than non-Scouts.
- Scouts who are engaged and spend more time in the program were more hopeful, helpful, obedient, cheerful, kind and trustworthy.
INVEST IN THE FUTURE

Anyone can talk about making a difference in the lives of young people - but Scouting puts words into action. Words like honor, duty, leadership and service translate into actions like achieving academic success, building self-confidence and creating opportunities that many kids can’t get anywhere else. And it all starts with our values - words we have lived by for more than 100 years.

HOW MUCH SHOULD I INVEST?

The Quivira Council will invest $334 per member to provide one year of Scouting.
